

Almighty Dollar

Kevin McCall

Voodoo in my blunt, I must got good karma
It's the reason why I'm rollin in this frisky kama
Every check I likes these digits after every come up
That's 6 degrees of separation, watch me meet Obama
Just bought a new whip for my baby mama
Came with a driver cause she ride for our baby daughter
And that's gonn save a lot of drama
Thank God for that almighty dollar Money, money over everything, know why,
'Cause money changes everything, no lie,
That almighty dollar, dollar, baby
Make all my problems, fade away
Almighty dollar, oh
Ain't official in these streets, you better pay your taxes
I don't need no passes, all my niggas actin factin
Just bought a crib way out in Calabasas
But I still be in the hood like a V8 engine
Vroom, vroom, my coupe got leg room
I'm laying back and reclinin, my ceiling's the sun roof
Reflections of diamonds shining, my smile is bright as the moon
It's like I made a wish on a star and it came true, true
Money, money over everything, know why,
'Cause money changes everything, no lie,
That almighty dollar, dollar, baby
Make all my problems, fade away
Almighty dollar, oh
