Get Back

Nine Lashes

I guess you don't believe me now
You never wanted this
Back turned in wind, that's all you have, it's all you neededYou're all right, you're all right now (you believe what you want to)
Gone somehow, you gone somehow, but I'm waiting for youGet back to where you once believe, to get back, get back
You want so bad to bury mean, get back, to get backMore cry from the picture perfect calm, oh can you see it?
A bright life from the distance lead you dark and never free herYou're all right, you're all right now (you believe what you want to)
Gone somehow, you gone somehow, but I'm waiting for youGet back to where you once believe, to get back, get back
You want so bad to bury mean, get back, to get backYou never know just why I had it mine (had it mine)
How many way, but you're way so far now
Whatever feel you, you just had to find (had to find)
You never see it but it killed you slowly
Yeah, it's gonna kill you slowly, yeah, it's gonna kill you slowlyGet back to where you once believe, to get back, get back
You want so bad to bury mean, get back, to get backGet back to where you once believe, to get back, get back
You want so bad to bury mean, get back, to get back
