Rush Over Me

Backstreet Boys

Washed away my sad face
You flooded all my empty space
You take away life's heartbreak
And I know with you it's gonna be okay
You're rushin' through me
(Like water from heaven)
I feel you movin' through me
(Like sand in the sea)
And now I feel so alive
(I know that there must be something here)
So alive
(You're all the air in my atmosphere)
Finally I feel complete
'Cause you have rushed over me, yeah
(Over me, over me, over)
There's no more blindness
'Cause when I cry I'm smilin'
You kept me from dyin'
And I know with you I'll keep on livin'
You're rushin' through me
(Like water from heaven)
I feel you movin' through me
(Like sand in the sea)
And now I feel so alive
(I know that there must be something here)
So alive
(You're all the air in my atmosphere)
Finally I feel complete
'Cause you have rushed over me

It's not enough
(Not enough)
Just holding on
(Holding on)
Before I met you I was lost
Now that you're standing here
I don't want you to go
'Cause I know that your love keeps me alive
You're rushin' through me

(Like water from heaven)
I feel you movin' through me
(Like sand in the sea)
And now I feel so alive
(I know that there must be something here)
So alive
(You're all the air in my atmosphere)
Finally I feel complete
(I feel)
You have rushed over me
Through me
(Like water from heaven)
I feel you movin' through me
(Like sand in the sea)
And now I feel so alive
(I know that there must be something here)
So alive
(You're all the air in my atmosphere)
Finally I feel complete
You have rushed over me
