Never Will I Break

Stemm

Lay me down, wash this blood off of my hands for me
While I cry out
Don't let me die before I go to sleep
I can't keep going but I cannot start again
This road I walk is paved with the broken
Promises I made
At least a million times I've fallen
But never will I break
These walls I make they hold me in and hold me back today
Oh but tomorrow's new
Then I walk right out and walk right over you
If you hear me screamin', please don't let me fall again
This road I walk is paved with the broken
Promises I made
At least a million times I've fallen
But never will I break
My time is on it's way
I'll fall but I won't break
This road I walk is paved with the broken
Promises I made
At least a million times I've fallen
But never will I break
This road I walk is paved with the broken
Promises I made
At least a million times I've fallen
But never will I break
