# Swim in the Light

## [Kid Cudi](#)

You could try and numb the pain, but it'll never go awayDamage control
The same old tricks won't work no more
Smarter, stronger
Think I'm gon' make it through
What is to do, I've been low enough
I make enough
I jumped too low, now out the wayYou could try and numb the pain, but it'll never go away
You could try and numb the pain, but it'll never go away
You could try and numb the pain, but it'll never go away
You could try and numb the pain, but it'll never go away
Ey, yeahCalls from the dark
I got hope in my eyes
No help inside
I'm a swim in the light
Mmm, she tryne pull me in
But the same old tricks can't work no moreYou could try and numb the pain, but it'll never go away
You could try and numb the pain, but it'll never go away
You could try and numb the pain, but it'll never go away
You could try and numb the pain, but it'll never go away
Ey, yeahWhen you're in love
Swim in the light
Swim in your love
This get well, oh
Yeah
