

III Ways to Epica

Kamelot

When you play with fire
You must anticipate some burns
Chasing for desire
It's just a different way to learn I am defected from God
(God has seized my soul)
So low redemption's too far
(I am heane's sheen) She's the one that I loved
(Love is all we know)
And she tore me apart
(The dark can never win) All that I require
Is some trust as the pages turn
I can take you higher
'Cause your will is my concern I am defected from God
(God has seized my soul)
So low redemption's too far
(I am heaven's sheen) She's the one that I loved
(Love is all we know)
And she tore me apart
(The dark can never win) So long
Maybe forever
I must carry on Why did God take away
The one thing I wanted
Maybe God is a melody
We all serenade You would not feel sadness
If you've never tasted joy
That's the curse of humans
Born in passion you destroy I am defected from God
(God has seized my soul)
So low redemption's too far
(I am heaven's sheen) She's the one that I loved
(Love is all we know)
And she tore me apart
(The dark can never win)
