

Brother John

[David Lindley](#)

Turn around for something better
Children give up, don't you ever?
Remember that the Devil's clever
Brother John, where are you, why are you sleeping?
Brother John, why are you, where are you sleeping?
Take the light into your room
Cast a candle on your doom
Your master, he is coming home soon
Brother John, how are you, why are you sleeping?
Brother John, why are you, why are you sleeping?
May your awakening be near
Heaven could be anyplace, why not here?
Why not here? Why not here? Why not here?
Brother John, how are you, where were you sleeping?
Brother John, how are you, how are you sleeping?
Brother John, how are you, how are you sleeping?
Brother John, how are you, how are you sleeping?
