

# Third Shade of Green

## Ocean Colour Scene

Third shade of blue  
The sky and you  
Like the rain over the sea Third shade of red  
The lover's bed  
Crimson blood and rose Third shade of green is all that you feel  
Just like my love  
But half as unreal, half as unreal And my love  
And my love  
And my love  
And my love And my love  
And my love  
And my love  
Love, love And my love  
And my love
