

You Get Worked

311

This is happening, this here is life
Days spent pondering, truth is a knife
Respect due to those who have caught it
Dedicated to our friends who have sought it
This is happening, this here is life
Days spent pondering, truth is a knife
Respect due to those who have caught it
Dedicated to our friends who have sought it
Brainstorm, superseding the norm
When we come together, new planet is born
You revel in the chaos when people are torn
And then you come to find out your welcome is worn
We are advancing and retracting visionaries
Really here, it's not imaginary
The way you work your mind, you find it's an art
Where you feel it most, you feel in your heart
Everybody gets confused
Delusions are everywhere
Buy into fakeness, you'll feel used
Double talk fills the air
Looking all over for happiness
I've got the will to live
It's in front of you right now, don't you feel stressed?
Falls through my hands like a sieve
I'm on a new high with a pen and a pad
And for fun I attend a jam that's super bad
At the same time give it all that I have
Whether you're square or the coolest lad
Eatin' up my people, purgin' their words
Jammies take flight like Icarus birds
Drop on you and you get hurt
'Cause if you're under the rock, you get worked
Say, what gives, are you after me?
Breakin' me down, won't you let me be?
Won't be having none of your mind control
It ain't gonna work on me, no more
I said, what gives, are you after me?
Breakin' me down, won't you let me be?
Won't be having none of your mind control
It ain't gonna work on me, no more
Woo, ha, ha, you get worked
If you don't watch your back
People are scheming on you
Exploiting all the things you lack
They'll do what they have to do
Your good will is something they'll crack
How many times will they bust?
Your originality, they will hack
Don't know just who you can trust
I'm on a new high with a pen and a pad
And for fun, I attend a jam that's super bad
At the same time give it all that I have

Whether you're square or the coolest lad
Eatin' up my people, purgin' their words
Jammies take flight like Icarus birds
Drop on you and you get hurt
'Cause if you're under the rock, you get worked
Yeah, you get worked, yeah, you get worked
Yeah, you get worked, yeah, you get worked
Say, what gives, are you after me?
Breakin' me down, won't you let me be?
Won't be having none of your mind control
It ain't gonna work on me, no more
You get worked
