

# Who Shot John

## Chuck Prophet

They say I shot Montgomery, shot him in the chest  
It never went to trial, Montgomery confessed  
They say possession is still nine-tenths of the law  
Well what possessed you to ask me who shot John  
Eddy got probation, went out and robbed a bank  
While out at the end of Jackson, Fatty walked the plank  
I can hear him laughing still, on the seventh floor  
Eddy wrote me a letter and asked me who shot John  
Eddy dropped a kite from prison, told me who shot John  
I went out last Sunday, ran into Cyril  
He said I seen your friend Johnny out running with your girl  
They were in the backseat so I climbed into the front  
And in all of the commotion, tell me who shot John  
There wasn't anybody there to witness who shot John  
Have you seen my baby, I ain't seen her around  
They say I shot my baby, they say I shot her down  
She was here for a little while but now, my baby, she gone  
They've yet to find the body or who shot John  
There's some mistakes that I don't make, tell me who shot John  
Well the truth is out there somewhere, who shot John  
I think I'm gonna start a rumor that you shot John  
Hold me in your arms and tell me who shot John  
Put another log on the fire, who shot John  
I hear they're gonna make a movie  
Well one more thing, who shot John?
