

# Summer

## Nuclear Valdez

War fell upon an island  
When a single handed man  
Raped the land of simple men

In the year 1959  
Red was more than just a stain  
It became hunger pains

As they flew away up high  
Tears fell from the sky  
And it rained and it rained and it rained all summer  
It rained and it rained and it rained all night

Hope soon becomes a poison  
Working in a factory  
Sewing dreams to memories

Far away, in a dying place  
A wife will miss her husband's face  
Curse her race for their disgrace

As they flew away up high  
Tears fell from the sky  
And it rained and it rained and it rained all summer  
It rained and it rained and it rained all night

---
