Your Way Home

Chris Palser

just be yourself
they're not expecting anyone else
you wear it well
from this far away its hard to tellthe moment we knew
they said there was nothing
we could do
if i could choose
you know what i would dodon't be afraid
you're not alone
we'll find your way home
i'll be right here
i won't let go
we'll find your way homethe smiles you fake
the nites awake
this still seems like some big mistake
hushabye
one more lullabye
just so hard to say goodbye
was cold that day
your favorite song was played
what remains
nothing will ever be the samethe moment we knew
they said there was nothing
we could do
if i could choose
you know what i would dodon't be afraid
you're not alone
we'll find your way home
i'll be right here
i won't let go
we'll find your way home
she's all I had
she's all I know
I can't find my way home
