

# Your Way Home

Chris Palser

just be yourself  
they're not expecting anyone else  
you wear it well  
from this far away its hard to tellthe moment we knew  
they said there was nothing  
we could do  
if i could choose  
you know what i would dodon't be afraid  
you're not alone  
we'll find your way home  
i'll be right here  
i won't let go  
we'll find your way homethe smiles you fake  
the nites awake  
this still seems like some big mistake  
hushabye  
one more lullabye  
just so hard to say goodbye  
was cold that day  
your favorite song was played  
what remains  
nothing will ever be the samethe moment we knew  
they said there was nothing  
we could do  
if i could choose  
you know what i would dodon't be afraid  
you're not alone  
we'll find your way home  
i'll be right here  
i won't let go  
we'll find your way home  
she's all I had  
she's all I know  
I can't find my way home
