

Unlove You

Ann Marie

See I never understood
How you can just tell lies to me
I thought that we were good
Then you start acting differently I call you don't pick up
I swear you be testing me
You claim you won't switch up
But you ain't the same to me But now I understand
That you ain't never gonna change
I kept letting you back
And you just let me down again
When you were down and out
I helped you out
I did everything you asked me to
And baby now
I wish I could forget you
Wish I could unlove you
Wish that I could go back to
The days before I met you Then maybe you can't hurt me like you do
Make me feel the way you do
Keep me running back to you
I wish I could forget you
Wish I could unlove you
Wish that I could go back to the days before I met you
Then maybe you can't hurt me like you do
Make me feel the way you do
Keep me running back to you
Way before I touched you
Way before I fucked You
Way before I thought I could love you You supposed to hold me down
But all you did was hold me back
I wished I knew you were a clown I wouldn't have threw this ass back
Yeah I said It I'm to good for you
Shorty that's a fact
I gave you everything and more
And this is how you pay me back Now all I wanna know is
Was it the truth
You could've fucked them
Hoes lives up
So why did you choose me Why did you use me

Why did you bruise me
Should've kept that shit moving
Now baby I wish I could forget you
Wish I could unlove you Wish I could go back to the days before I met you
Then maybe you can't hurt me like you do
Make me feel the way I do
Keep me running back to you I wish I could forget you
Wish I could unlove you Wish I could go back to the days before I met you
Then maybe you can't hurt me like you do
Make me feel the way I do
Keep me running back to you
