

# Soft Rock Star

## Metric

Climb the wall to make the sun rise in time  
But the night had already begun  
Climb the wall to make the sun rise in time  
But the night had already begun  
Now here I am I am the one  
So hang high soft star  
Don't shine for swine Not a lot of room to move us  
Where is my guide  
I tried lookin' up to you girls  
Please correct me, but didn't you let the work slide  
Capitalize on a novelty, cheap pink spotlight  
Is it alright Choose the highest bidder was my answer  
When they told me I was up for sale  
School yard junior high style bullies  
Have always tried to buy the better girls  
But failed, now the check is in the mail Bubble gumbo martini  
Is nothing like depanneur red wine  
Travel through time  
Who were you after  
You were mine Choose the highest bidder was my answer  
When they told me I was up for sale  
School yard junior high style bullies  
Have always tried to buy the better girls, haven't they  
Choose the brightest future, mind the death  
And try to buy the better girls  
But failed till now  
Check is in the mail So hang high  
Soft rock star  
Hang high  
Soft rock star  
Don't shine  
Before swine Choose the highest bidder was my answer  
When they told me i was up for sale  
School yard junior high style bullies  
Have always tried to buy the better girls, haven't they? Choose the highest bidder was my answer  
When they told me i was up for sale  
School yard junior high style bullies  
Have always tried to buy the better girls  
But failed now

The check is in the mail
