

Rise

Todd Rundgren

Plans to make and facts to face
There ain't no future in this place
Time's ticking away, time keeps ticking away
Time's ticking away, time keeps ticking away
If we don't rise, then we will fall
If we don't rise, then we will fall We don't need an excess of caution
Doing nothing is not an option
Time's ticking away, time keeps ticking away
Time's ticking away, time keeps ticking away
If we don't rise, then we will fall
If we don't rise, then we will fall Time's ticking away, time keeps ticking away
Time's ticking away, time keeps ticking away
Time's ticking away, time keeps ticking away
Time's ticking away Time's ticking away, time keeps ticking away
Time's ticking away, time keeps ticking away
