

My Lovers

Global Citizen

you know you like to make a mess
you know you like to make a mess
i'll attend to you and i'll caress
you and the girls and then i'll get some rest in the morning wake up fresh
in the morning wake up fresh
already getting hard, daisies, cum and cigarettes
you and the girls already undressed my lovers, my lovers you are lovely my faithful whores
you are lovely my faithful whores
do you again, more, more, more
you and the girls now smiling and sore
