Beyond Gravity

Ilse DeLange

The only thing that keeps me down
Is gravity
Without it I might fly around
Above life's raging seaYou've released my soul
You've let my spirit go
So I can be the untied melodyA song that rises
From my heart
Through these lips
Back to youBeyond gravity, lifting me
Up above the clouds
And if ever we fall, we'll come to rest
Above the raging sea and beyond gravityI'm a picture made of broken things
A fallen feathers from an angel's wings
The shattered pieces of my past
Are held together like stained glassAnd as your love shines through me
I reach out for the colors of you
So I can be, the untied melodyA song that rises
From my heart
Through these lips
Back to youBeyond gravity, lifting me
Up above the clouds
And if ever we fall, we'll come to rest
Above the raging sea and beyond gravityAnd if ever we fall, we'll come to rest
Above the raging sea and beyond gravity
