

# I Wanna Be Your Hero

## Def Leppard

I wanna be your hero  
I'll be a trick of the light  
I wanna be your hero  
I'll be your heat in the night Hold tight  
'Cause I like what I see  
You excite  
You put your finger on me  
You're not too shy  
You put a sting in my tail  
A magic ride  
And I'm a-hot on your trail  
You know You got something I want  
You got something I need  
I've got something to say  
I'm on my way Hot licks, on the tip of my tongue  
Electric, you turn your headlight on  
You know You got something I want  
You got something I need  
I got something to say  
I'm on my way oh yeah  
Get up and go I wanna be your hero  
I'll be a trick of the light  
I wanna be your hero  
In the heat of the night Hold tight  
I like what I see oh  
Just one night  
That's all I'm asking from you, you You got something I want  
You got something I need  
I got something to say  
I'm on my way oh yeah  
Get up and go I wanna be your hero  
I'll be a trick of the light  
I wanna be your hero  
In the heat of the night  
I wanna be your hero  
I'll be a trick of the light  
I wanna be your hero  
In the heat of the night I wanna be your hero  
I wanna be your hero

I wanna be your hero  
I wanna be your hero
