

# Hellrider (Live)

## Judas Priest

Here they come  
These gods of steel  
Megatron  
Devouring what's concealed

Speed of death  
Crossfired they stare  
Final breath  
From vaporizing glares

Raised to man oppressed  
Sign of persecution

Hellrider  
Roars on through the night  
Hellrider  
Raised for the fight

All incensed to overthrow  
Strong defence  
With armaments they grow  
By this quest  
Their fates renowned  
Put to rest  
Abominations crown

Time to ram it down  
Judgement for the tyrant

Hellrider  
Roars through the night  
Hellrider  
Raised for the fight

Fight undying and eternal  
Wheels bring death and  
Pain infernal  
Honour bound in strength repleated  
To no end they're undefeated

Hellrider, hellrider  
You fought their battle for them

Hell rider, hellrider  
You bought them through their despair

Hellrider, hellrider  
Your tempered steel relinquished

Hellrider, hellrider  
You slaught them all extinguished

Wrath of doom  
In killing fields  
They consume  
For valiants never yield

Triumph to the gods  
Vanquished of enslavers

Hellrider  
Breaking their will  
Hellrider  
In for the kill

Hellrider, hellrider  
You fought their battle for them  
Hellrider, hellrider  
You brought them through it all  
Hellrider
