Money Bought

Nickelback

Cherry stem in her mouth, she could tie in a knot
Favorite trick she does, one of ten that she's got
Makin' friends, setting trends, hardly having to try
All the looks by the book, best that money can buyLook what your money bought
It's all that she's got

Ooh it keeps her company

Straight from Mom and DaddyLast chance to dance out in back of the bar Shakin' hands, nice to meet you, I don't know who you are She has a toke and makes a joke about the alley man

Never pleasured from the treasure in a garbage canLook what your money bought

It's all that she's got

Ooh it keeps her company

Straight from Mom and DaddyLook what your money bought

It's all that she's got

Ooh it keeps her company

Straight from Mom and DaddyCherry stem in her mouth, she could tie in a knot Favorite trick she does, one of ten that she's got

Makin' friends, settin' trends, hardly havin' to try

All the looks by the book, best that money can buyLook what your money bought

It's all that she's got

Ooh it keeps her company

Straight from mom and daddyLook what your money bought

It's all that she's got

Ooh it keeps her company

Straight from Mom and Daddy
