

To Protect

Mackintosh Braun

I knew that I would recognize
And now I see you clearly
You give me something more
I'm better when you're near me
Everything, it changed for good
It happened when I saw you
Whatever it takes to get to you
There's nothing I wouldn't go through

To keep you safe, I'll do my best
You're what I've wanted to protect
All I have, all I do
Doesn't compare to being near you
To keep you safe, I'll do my best
You're what I've wanted to protect
All I have, all I do
Doesn't compare to being near you

You know how most things aren't for sure
But I'll always feel how I do
Never want to change the thought
You're perfect how I found you
Want to stay with you right now
And watch the world from out here
We can have this all to ourselves
Forgetting all of our fears

Wouldn't matter where you go or what you might do
I'll never be too far away, I'm here for you

To keep you safe, I'll do my best
You're what I've wanted to protect
All I have, all I do
Doesn't compare to being near you
To keep you safe, I'll do my best
You're what I've wanted to protect
All I have, all I do
Doesn't compare to being near you
