

Run This Town

Corb Lund

You and me together could have run this town
Together you and I could have owned this place
If I'd a sped up, and you'd a slowed down
You and met together could have run this town You blink for a second and a lot of things disappear
I guess I'll add it to the list of the other things lost last year
Yeah you blink for a second things up and just disappear
And it's a pretty long list but I'm still standing here You and me together could have run this town
Together you and I could have owned this place
If I'd a sped up, and you'd a slowed down
You and met together could have run this town The novel that I'm reading has a character a lot like you
And it took a little while but I recognized things you do
Yeah the novel that I'm reading has a character a lot like yours
I put it back on the shelf, took a drink and closed the drawer You and me together could have run this town
Together you and I could have owned this place
If I'd a sped up, and you'd a slowed down
You and met together could have run this town You and me together could have run this town
Together you and I could have owned this place
If I'd a sped up, and you'd a slowed down
You and met together could have run this town
