For Love

The Sam Willows

Too many people on board this train
I gotta find my way around
Too many voices in my head
Gotta reach high turn it down
Too many tear drops on the floor, anymore
Gonna kiss the ground right before I drown
Are you even gonna try to reach me?Too many words stuck in this phone
But your voice ain't even there
Too many nights spent home alone
With your laughter in the air
Too many songs of the broken heart
Try to shut you out but you're everywhereAre you even gonna try to reach me?
Is this how it's gonna end?For love imma give it all
For love imma give it all
For love
For love imma give it all
For love imma give it all
You and I lets do it all
For loveToo many paper-shaped stars
Falling out of broken jars
Too many unforsaken scars
If it hurts bleed it out on this guitar
You build your glass house round your heart
Like a work of art break it and we'll never be apartAre you even gonna try to reach me?
Is this how its gonna end?For love imma give it all
For love imma give it all
For love
For love imma give it all
For love imma give it all
You and I lets do it all
For love(Give it all, give it all, give it all for love for loveX2)
(For love X7)For love imma give it all
For love imma give it all
For love
For love imma give it all
For love imma give it all
You and I lets do it all
For love(Give it all, give it all, give it all for love for love X2)
For love, for love, for love
