

Australia (Don't Ever Let Her Go)

Satellite Stories

Delorean
By the best I can, did we
Delorean
You said now it's time to leave It's just a year you know
I'm back before the snow Don't ever let her go to Australia
I've seen some photos from her camera
Don't ever let her go to Australia
I've seen some photos from her camera Delorean
Guess you changed your plan to "B"
The hardest thing to learn
Is to lose something you've earned It's just a year you know
I'm back before the snow Don't ever let her go to Australia
I've seen some photos from her camera
Don't ever let her go to Australia
I've seen some photos from her camera We could smile
White teeth and our lame boats
Or we could smile inside our raincoats
Do you feel ever scared? (x2) Don't ever let her go to Australia
I've seen some photos from her camera
Don't ever let her go to Australia
I've seen some photos from her camera
