Poison

Felicity

Who would have thought
Love could paralyze
Stuck in a lust We can't deny
Drifting away to this vacant high
Oh it's a sick thing it's deadly
It's leading me to my grave
I'm craving you baby yeah you're so clore to me
A bit of your apple is all that I need
You're like poison you're like poison
I look in your eyes and I'm numb to the touch
A taste of your venom it's all just too much
You're like poison you're my poison
I took a lethal dose of you
Did what I swore I'd never do
Oh you're a sick thing you're deadly
You're leading me to my grave
I'm craving you baby yeah you're so close to me
A bite of your apple is all that I need
You're like poison you're like poison
I look in you eyes and I'm numb to the touch
A taste of your venom it's all just too much
You're like poison you're my poison
The room is spinning I'm out of my head
I try to get up but my hertbeat's a mess
Oh and I can't see past these warning signs
But I don't care at least not for tonight
I'm craving you baby yeah you're so close to me
A bite of your apple is all that I need
You're like poison you're like poison
I look in your eyes and I'm numb to the touch
A taste of your venom it's all just too much
You're like poison you're my poison
You're like poison you're my poison
