Call On Me

Keke Wyatt

Oh baby, oh baby, oh baby, oh baby
If you ever need someone that you can put your trust in
If you ever need someone that you can call a true friend, yeah, yeah
If you ever need to have a shoulder just to cry on
Baby, just believe in you, know in me you can rely on
Baby just call on me, I will come running to you
Whatever you need baby, I'll give it to you
If you just call on me, I will come running to you
Whatever you need baby, I'll give it to you
I'll give it you baby, do you hear me?
Do you hear me? Let me finish baby
Now see if you need someone to love you all through the night
And baby, if you need someone to hold you oh so tight
If you feel the need to talk about things you don't understand
Let me be the one you call, I reach out my hand to you
Baby just call on me, I will come running to you

Whatever you need baby, I'll give it to you
If you just call on me, I will come running to you
Whatever you need baby, I'll give it to you
I'll give you my love
I'll give you my peace
I'll give you my time
I'll give you everything you need
I'll give you my love
I'll give you my joy
I'll give you my life
I'll give you everything you need, you need
Baby just call on me, I will come running to you
Whatever you need baby, I'll give it to you
If you just call on me, I will come running to you
Whatever you need baby, I'll give it to you
Baby just call on me, I will come running to you
