

Tidal Wave

Ozark Mountain Daredevils

Runnin' fast climbin' to the sky
A piece of pie hit me in the eye, tidal wave got me on the run
Now I'm out lookin' for an answer
Got a date with a Spanish dancer butter weighs half a ton I'm in love and I'm never gonna come back down
I'm in love and I'm never gonna look back now
Oh, Lord, you don't need a reason, whoa to be saved Walked in turned on the light
I didn't know I turned on the night Cadillac set to roll
Now I'm doin' double back-flips
Turned the key but the fan belt slips saddle packs a heavy load I'm in love and I'm never gonna come back down
I'm in love and I'm never gonna look back now
Oh, Lord, you don't need a reason, whoa to be saved Runnin' fast climbin' to the sky
A piece of pie hit me in the eye, tidal wave got me on the run
Now I'm out lookin' for an answer
Got a date with a Spanish dancer butter weighs half a ton I'm in love and I'm never gonna come back down
I'm in love and I'm never gonna look back now
Oh, Lord, you don't need a reason, whoa to be saved
