

# Makin' Some Noise

## Tom Petty & The Heartbreakers

When I was a young boy  
I was workin' for the state  
I wasn't makin' much money  
I was stayin' out late Might go down at nighttime  
Played music in the bars  
Take my breaks out  
Underneath the stars I was makin' some noise  
I was a workin' boy  
Up at the top of my voice  
Sayin', "Look at me mama, I'm makin' some noise" I had to rock the boat, I had to shake the tree  
To see what'd fall, down on me  
I thought "Maybe I can make it if I never give in  
I been down before, I ain't goin' down again" I'm makin' some noise  
I been a worried boy  
Up at the top of my voice  
Sayin', "Look at me mama, I'm makin' some noise" From across the canyon a guitar plays  
Through an amplifier on a long delay  
It was an old melody, I recognized the song  
I had an amplifier too, so I played along I'm makin' some noise  
I'm still a working boy  
At the top of my voice  
Sayin', "Look at me mama, I'm makin' some noise" I'm makin' some noise  
I been a long gone boy  
At the top of my voice  
Sayin', "Look at me mama, I'm makin' some noise" I'm makin' some noise  
I'm makin' some noise
