

# Pulverized

## Hecq

Temptation to kill again  
The sensation comes over me  
An addiction to murdering  
I can't stop killing You tried to stop me  
Dead, before you started  
Put me away

Before I put another in the grave Pulverized, knocked down it came up behind me

In the dark overwhelmed, I feel life slip from me  
This isn't happening, pulverized

I won't sustain these injuries pick up the pieces of me Temptation to kill again  
The sensation comes over me  
An addiction to murdering  
I can't stop killing You tried to stop me  
Dead, before you started  
Put me away

Before I put another in the grave Pulverized, knocked down it came up behind me

In the dark overwhelmed, I feel life slip from me  
This isn't happening, pulverized

I won't sustain these injuries pick up the pieces of me Temptation to kill again  
The sensation comes over me  
An addiction to murdering  
I can't stop killing You tried to stop me  
Dead, before you started  
Put me away

Before I put another in the grave Pulverized, knocked down it came up behind me

In the dark overwhelmed, I feel life slip from me

This isn't happening, pulverized

I won't sustain these injuries pick up the pieces of me An addiction to murdering  
I can't stop
