# Always Malaise

## Interpol

Always you need me, lover
For always release me, loverI want to give you the lowdown
I want to give you the face to face
Always is all I can give
Isn't quite what you take me forI'll act in a certain way
I control what I can
That's the man I am
Well, it pains me to say
And I do what I can
That's the man I amAlways, always, always
Always release me, lover
I want to give you the face to face(Won't let you go)
(Won't let you go)
(What'll you do?)
I want to miss some moreI'll relax in a certain way
I control what I can
That's the man I am
(Clearing out of the shade)Well, it pains me to say
And I do what I can
(Coming out of the rain)
That's the man I am
(Clearing out of the shade)
That's the man I amComing out of the rain
Clearing out of the shadeAll that you've known
Be as it may
All that you've shown
Reach in and try all day
(Coming out of the rain)
I wanna try all day
(Clearing out of the shade)All that I've known is you'll be okay
Follow your soul and it tells you to fly away
(Coming out of the rain)
I wanna fly all day
(Clearing out of the shade)All that you've known
Be as it may
All that you've shone
Reach in and shine all day
(Coming out of the rain)
I wanna shine all day

(Clearing out of the shade)
