

Make Love (Acappella)

Uniting Nations

Let's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby get up now, turn your look around We're holding up right now
It makes you feel somehow
We'll be together forever there's no doubt
Holding up right now, it makes you feel somehow Just making love, we're making love
Just making love, we're making love Let's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby, get up now, turn your look around Just making love, we're making love
Just making love, we're making love Baby, get up now
Turn your look around Let's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby, get up now, turn your look around Let's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby, get up now, turn your look around
