

# Taxi

## The Samples

We drink from the same glass  
We share the same past  
The time, long ago  
You told me that I should knowIt's hard  
No matter what you do  
My guard  
Was always up for youThe job is never done  
A kiss just for fun  
Our flood waters are gone  
Our blood brothers are strongIt's hard  
No matter what you do  
My guard  
Was always up for youI'll slip you underneath  
Between the grip of your teethIt's hard  
No matter what you do  
My guard  
Was always up for youIt's hard  
No matter what you do  
My guard  
Was always up for youIt's hard  
No matter what you do
