

# Your Early Stuff

## Pet Shop Boys

You've been around but you don't look too rough  
And I still quite like some of your early stuff  
It's bad in a good way if you know what I mean  
The sound of those old machines  
You've been around but you don't look too rough  
And I still quite like some of your early stuff  
You've been around but you don't look too rough  
And I still quite like some of your early stuff  
Suppose you're more or less retired now  
I think I read somewhere how  
You've written a book or a film score  
Amazing that you lot come back for more  
You've been around but you don't look too rough (Hey, what's your name?)  
And I still quite like some of your early stuff  
You've been around but you don't look too rough (Anyway, what's your name?)  
And I still quite like some of your early stuff  
  
Those old videos look pretty funny  
What's in it for you now, need the money?  
They say that management never used to pay  
Honestly, you were ripped off back in the day  
Hey, what's your name?  
Anyway, what's your name?  
You've been around but you don't look too rough (Hey, what's your name?)  
And I still quite like some of your early stuff  
You've been around but you don't look too rough (Anyway, what's your name?)  
And I still quite like some of your early stuff  
You've been around but you don't look too rough (Hey, what's your name?)  
And I still quite like some of your early stuff  
You've been around but you don't look too rough (Anyway, what's your name?)  
And I still quite like some of your early stuff  
Hey, what's your name?
