Sleeping Beast

Skinny Puppy

early one morning shattering life in the face
the finest creative loss of graceout
of heartshot with no hope
meet the people try to cope
nod the head with distraction
faces flirt for your reaction
with a grin over again
start the day anothers whimnice to nightmare
she's a sleeping beast
lie the same dear
anguish is your feast
nice to nightmare
she's a sleeping beast
lie the same dear
anguish is your feastfrighten the peaceful
powerless thought in the head
with decree attorney
singe my dread
in the darkness know it well
siege of face love to tell
how and why its indecision
notice change by shapeshifting
from the real sacred seal
rip with sex
intelligent sneer
resist the useless aggravation
kicked in teeth
the blankness created
forms a wreath
slap the coffin
hear no shout
feel the courage seeping out
plunge the knife with no reason
slash the name within season
slump retreat
run again
ride the pain
going insanenice to nightmare
she's a sleeping beast

lie the same dear
anguish is your feast
nice to nightmare
she's a sleeping beast
lie the same dear
anguish is your feast[and futher, there'll be millions of toxins
a twenty megaton bomb last year in boston(?) in 1952(?)
was estimated to release two point two million toxins,
there'll be millions of toxins (x4), there'll be nobody (x3),
everything will be gone (x3),
there'll be millions of toxins (x4), everything will be gone (x3)][sample]nice to nightmare
she's a sleeping beast
lie the same dear
anguish is your feast
very same morning
shattering life
in the face
the finest creative
loss of grace
find the truth
far to down
bring it up
sense will drown
in side review sense elation
can't regain the motivation
piercing probing is disturbing
drove to me
i'm not worth knowingnice to nightmare
she's a sleeping beast
lie the same dear
anguish is your feast
nice to nightmare
she's a sleeping beast
lie the same dear
anguish is your feast
Now you know
it's time to die dear
your somebodys beast.
