

In My Headphones

Ayer

In your halo my mind never stops
Wrapped in cellophane and I can't breathe
So I come up for air
I come up from under water
Rising up, I'm unfolding my wings
innocent like kids who've yet to see
I'm safe in the sky
so I can unleash my dreams
I'm turning up, I'm lost in the sound
I'm turning up, I'm lost in the sound
In my headphones, lost in echoes
I am happy here
Frozen records make me better and
I forget you in my headphones
In my headphones
Falling parts drop off, I'm leveling
I bare my body here permanently
The stars in my scar
grow dimmer a sweet release
I'm turning up, I'm lost in the sound
I'm turning up, I'm lost in the sound
In my headphones, lost in echoes
I am happy here
Frozen records make me better and
I forget you in my headphones
In my headphones
In my headphones
My salvation is the beat
My salvation is the beat
In my headphones, lost in echoes
I am happy here
Frozen records make me better and
I forget you in my headphones
In my headphones
In my headphones
In my headphones
