

My House

Cassie

my house

my house

my house

I don't even wanna go
tell me that you love me so
oh i never wanna leave
promise that you'll stay with me

I don't even wanna go
tell me that you love me so
ooh i never wanna leave
promise that you'll stay here with me
feels like you want me babe
and im gonna give it to you
this is my castle babe

i wanna help you find your way through so
let me know if you got no place to go
let you in my house baby we can flow
let me know if you got no place to be
you can ring my bell and come see me
you will never wanna go
tell me how you love me so
you will never wanna leave

promise that you'll stay with me

had you (repeated)

my house

if i had you in my house

i want you in my house

wait till you see what I've been hidin upstairs
theres no security take my hand and follow if you dare

if you kinda like that

if i take you through my double door

then your gonna see some more

let me know if you got no place to go

let you in my house baby we can flow

let me know if you got no place to be

you can ring my bell and come see me

you will never wanna go

tell me how you love me so

you will never wanna leave
promise that you'll stay with me
had you (repeated)
feels like you want it so much
feels like you waitin for my touch babe
feels like you want me right now
and im about to give it to you
