Embers

Owl City

There were days when each hour was a war I fought to survive
There were nights full of nightmares and I dreaded closing my eyes
There were skies that burst open with a downpour to drown me alive
But the world took a spark like a match in the dark and the fire brought me to life
So Im fanning the flames to climb so high cause theres no other way we can stay alive
Cause were burning bright as we all unite
And when its all said and done well shine like the sun so dont let the fire die
And well watch the sky as it fills with light
And though the embers are new, whatever you do just dont let the fire die
And youll find, therell be mornings when the ashes and embers are cold
But youll fight with a passion and youll never stop cause you know
Yeah you know it gets better and your story is yet to be told
Every push, every shove, every war, every love
Yeah the coals are beginning to glow
So Im fanning the flames to climb so high cause theres no other way we can stay alive
Cause were burning bright as we all unite
And when its all said and done well shine like the sun so dont let the fire die
And well watch the sky as it fills with light
And though the embers are new, whatever you do just dont let the fire die
Dont let the fire die
It gets better
Just dont let the fire die, no
Cause were burning bright as we all unite
And when its all said and done well shine like the sun so dont let the fire die
And well watch the sky as it fills with light
And though the embers are new, whatever you do just dont let the fire die
And though the embers are new, whatever you do just dont let the fire die
Dont let the fire die
