

Lifter

Edgewater

Down a road less traveled
And I see my purpose in front of me
And it's simple and It's gentle I foundDown a road less traveled
And I feel my conscience running deep
And it's simple but it's mental I foundAnd I'm never looking back
No I'm never looking back
No I'm never looking back againWe all fall down
Time keeps changing
We all will hit the groundDown a road less traveled
And I see my world beneath my wings
And it's simple but it's crippled I foundDown a road less traveled
