

Silence

Corey Glover

It's not the shouting
Or the angry words
It's not those looks
Sideways glancing
It's not do as I say
It's not complianceIt's the silence
It's the silenceIt's not the reasoning
It's not the logic
It's not the questions
Third degree
It's not acceptance
No, it's not defianceIt's the silence
It's the silenceFear of the unknown
Is bad enough, yeah
But saying nothing
Says so muchIt ain't you, it ain't me
Ain't where you come from
Color of skin
It's not about pain
It ain't about violenceIt's the silence
It's the silence
It's the silence
(Yeah)
It's the silenceNo more silence
No more silence
No more silence
No more silenceWait a minute, no more silence
Stand up better, shout it out, shout it out
Silence, yeah
Won't you please shout it out, silence?No more, no more silence
No, no, no, no, no, no
No more silence, please, please, please
No more silence, no more silence, yeahScream a minute, scream a minute
Silence, yeah, yeah, stop it now stop it now
Silence, please no more, please no more
Please no more, please no more silence
Oh, no, no, no, no more silence
Please, no more silence
