

Low Key (feat. Illa J)

Vanessa White

[Verse 1: Vanessa White]

Baby, the night is young
I'm here but I ain't trying to get drunk
Where do we go when we're on one?
And everything's already been done
I wanna try and let go
Without the alcohol

Tell me, where can I go when I'm on one?
And everything's already been done [Chorus: Vanessa White]

I just need a little privacy
Nobody judging me, yeah
I don't wanna drink tonight, it's like they don't want us to catch a vibe
I know it's unusual but I'd rather be low key, low key
Not everyday, post up, live in the moment, phones off
Don't take it personal but I'd rather be low key, low key

[Verse 2: Vanessa White]

Everyone's buying bottles
I know it's all for show
What is the motive if we
We could really just stay here and chill?
Turn the TV off

There ain't nothing wrong with it
Simple conversations
Is all we have and I know [Chorus: Vanessa White]
I just need a little privacy
Nobody judging me, yeah
I don't wanna drink tonight, it's like they don't want us to catch a vibe
I know it's unusual but I'd rather be low key, low key
Not everyday, post up, live in the moment, phones off
Don't take it personal but I'd rather be low key, low key

Cause I ain't even looking for no new friend
If we're already chilling on the weekend
This is low key, baby
Keep it low key, baby

I ain't even looking for no new friend
If we're already chilling on the weekend
This is low key, baby

Keep it low key, baby [Verse 3: Illa J]
Low key, speakin' my language

I'd rather have deep conversation
Not a bunch of peeps in our faces
Tryna see if me and you datin'
Though we'd be a dope combination
And we don't have to go and get wasted
We can whip some food in the kitchen
And bust a dope flow in the basement
We could pillow fight in the bedroom
I play the doctor, you be my patient
If that's too much, I can be patient
I don't wanna scare you away
Can't help it if I stare at your flame
The fire that you have, I desire
And I don't want that flame to expire
I do whatever you require
So if you wanna keep it on the low
I keep it to the flow
As long as I got keys to the door
And I hope she wanna see me on the low
And just know that these other dudes can't see me in the flow
