

# Hellrider

## Loudness

Here they come  
These Gods of steel  
Megatron  
Devouring what's concealed  
Speed of death  
Cross fired they stare  
Final breath  
From vaporizing glares  
Raised to man oppressed  
Sign of persecution  
Hellrider  
Roars on through the night  
Hellrider  
Raised for the fight  
All incensed  
To overthrow  
Strong defense  
With armaments they grow  
By this quest  
Their fate's renowned  
Put to rest  
Abominations grow  
Time to ram it down  
Judgment for the tyrant  
Hellrider  
Roars on through the night  
Hellrider  
Raised for the fight

Fight undying and eternal  
Wheels bring death and pain infernal  
Honor bound your strength repleted  
To no end they're undefeated  
Hellrider, hellrider  
You fought their battle for them  
Hellrider, hellrider  
You brought them through their despair  
Hellrider, hellrider  
Your tempered steel relinquished

Hellrider, hellrider  
You slaughter them all extinguished  
    Wrath of doom  
    In killing fields  
    They consume  
Their valiants never yield  
    Triumph to the Gods  
Vanquished of enslavers  
    Hellrider  
    Breaking their will  
    Hellrider  
    In for the kill  
    Hellrider, hellrider  
You fought their battle for them  
    Hellrider, hellrider  
You brought them through it all  
    Hellrider
