

Stolen From Me

Gone Is Gone

All that I want and all I feel
The craze will take me down
Nothing is real, search through the lies
I see right through you'll die You've stolen from me
In time you will pay
Gallows wait and bring you down
You've stolen from me
In time you will pay
Gallows wait and bring you down
I can't resist through the noise
Tell it like you did before
It never ends all the noise
Awakes and breaks our existence You've stolen from me
In time you will pay
Gallows wait and bring you down
You've stolen from me
In time you will pay
Gallows wait and bring you down Not all that bleeds is dying
Not all that bleeds is dying
Not all that bleeds is dying, dying, dying
You've stolen from me
In time you will pay
Gallows wait and bring you down
You've stolen from me
In time you will pay
And I will have found you
