

# Surgery

## Sarantos

Verse 1  
My doctor just told me  
That I need surgery  
And I've got no choice  
The sickness won't wait  
To him I trust my fate  
Down the hallway  
Daylight fading away  
Will I see the sun again?  
Chorus 1  
Inside my mind  
I am scared  
Of what's on the other side  
And truth be told  
I am terrified  
Verse 2  
They put a mask over my face  
I try to hold my breath to stop that cold embrace  
But I've got no choice  
I breathe it in  
Everything fades to black as my nightmare begins  
My family is waiting  
Outside praying  
As my life slips away  
Chorus 2  
Inside my mind  
I am scared  
Of what's on the other side  
And truth be told  
I am terrified  
Inside my mind  
I am scared  
Will I make it through alive?  
Truth be told  
I am terrified, to die!  
Guitar solo  
Chorus 3  
Inside my mind  
I am scared  
Of what's on the other side  
And truth be told  
I am terrified  
Inside my mind  
I am scared  
Will I make it through alive?  
Truth be told  
I am terrified, to die!  
End  
I feel a warm embrace  
Bright lights on my face  
Is this heaven?  
Or did I make it through?  
Did I make it back to you??
