

I Don't Know If I Should Stay

Alexz Johnson

Wheres my will
Can I find a way?
The earth is wild
And I cant sit stillA familiar sound
A familiar voice
Makes it so hard
To make a choice
I dont know if I should stayA thousand stars
You will have my word
Im bright enough
To fill these cracksA familiar place
A familiar voice
Makes it so hard
To make a choice
I dont know if I should stayI ran to you like water
I threw my body in
And I'll stand up on the ocean
Just to show you that I am strong, strong
But what if I am wrongA familiar look
A familiar smile
Makes it so hard
To make a choice
I dont know if I should stay away
