

You Never Know

Rupee

Enjoy yourself in de mass
'Cause you never know
It could be your last
Enjoy yourself in de mass
'Cause you never know
It could be your last
Give thanks and pray, festival day
Raise voices and say
We grateful that for another, year
De Father has let us live on carnival day
Raise voices and say, so many of us
Would like to be here with us
But now they are gone
Enjoy yourself, free up your mind
Inside de mass
Let yourself go, you never know
It could be your last
Give thanks and praise
When dem hands and go up in de air
Thank de almighty, that you live to see
At least one more year
Enjoy yourself in de mass
'Cause you never know
It could be your last
Enjoy yourself in de mass
'Cause you never know
It could be your last
Give thanks and pray, festival day
Raise voices and say
We grateful that for another, year
De Father has let us live on carnival day
Raise voices and say, so many of us
Would like to be here with us
But now they are gone
Please remember, those who left us
When you take your wine
'Cause it could have been you
Who didn't make it through
Please bear that in mind

And those who have gone
Your soul still lives on
In de band show and fete
And for de contribution
You made to the earth
We will never forget
Enjoy yourself in de mass
'Cause you never know
It could be your last
Enjoy yourself in de mass
'Cause you never know
It could be your last
Give thanks and pray, festival day
Raise voices and say
We grateful that for another, year
De Father has let us live on carnival day
Raise voices and say, so many of us
Would like to be here with us
But now they are gone
Enjoy yourself in de mass
'Cause you never know
It could be your last
Enjoy yourself in de mass
'Cause you never know
It could be your last
Give thanks and pray, festival day
Raise voices and say
We grateful that for another, year
De Father has let us live on carnival day
Raise voices and say, so many of us
Would like to be here with us
But now they are gone
