Rock Is In My Blood

[Sammy Hagar](#)

Look at me, it's hard to find
I know you can see what's on my mind
When my heart beats, it's two and four
It's getting hard to leave, I keep wanting moreBaby, 'cause
Rock is in my blood
Baby, rock is in my soul
And my heart's on fire, babyIt comforts me, makes me high
And what touches me, I can't deny
You can take me so far from here
But it still remains in my earsBaby, 'cause
Rock is in my blood
And it's pumpin', pumpin', pumpin'
Baby, rock is in my soul
And my heart's on fire, babyStay with me, I need you so
Don't you ever leave, baby, please don't go
'Cause there's something here in all this confusion
Maybe I'll give to you a blood transfusionBaby, 'cause
Rock, it's in my blood
Pumpin', baby, baby, baby
Rock, it's in my soul, yeahRock is in my blood, oh
Baby, rock, oh yeah, is in my soul
Fire
