Rebel Way

Snoop Lion | www.AudioCastle.net

(Hook)
You can't run away, run away
You gotta face this
You can't run away, run away
You gotta face this
Time is moving fast
Can't dwell on the past
Leave this morning last
I'll have another chance
Oh dreams look fake
For the new ones made
Nothing stays the same
Do it the rebel way(Verse 1)
From moonlight to sunrise
Day in and day out
I stay on my
Modus operandi
Opening my third eye
Fuck this on the words I say
Man stand a diligent, militant
With the sentiment, I'm here to represent
Constant changes like past ranges
Evident, the time we spend to sacred(Hook)
You can't run away, run away
You gotta face this
You can't run away, run away
You gotta face this
Time is moving fast
Can't dwell on the past
Leave this morning last
I'll have another chance
Oh dreams look fake
For the new ones made
Nothing stays the same
Do it the rebel way(Verse 2)
We still drop it hardcore
None of them can't take it
When the lion roar
Remote take no shorts tellin we want more

Now it's time to settle the score
For all of my people in the ghetto streets reppin
And all who really stepped on
Love is the cure and courage is the weapon
You can use to overcome(Hook)
You can't run away, run away
You gotta face this
You can't run away, run away
You gotta face this
Time is moving fast
Can't dwell on the past
Leave this morning last
I'll have another chance
Oh dreams look fake
For he new ones made
Nothing stays the same
Do it the rebel wayDo it the rebel way
Do it the rebel way
Do it the rebel way
Do it the rebel way
Do it the rebel way
Do it the rebel way
Do it the rebel way
Do it the rebel way
Do it the rebel way
Do it the rebel way
Do it the rebel way
Do it the rebel way
