

This Christmas Time

Lonestar

Presents underneath the tree
Candles burning bright
Stockings hung with lots of care
On this silent Christmas night
What makes this season magical
Is what made my dream come true
Just seeing you
To be here with you
Oh, this Christmas time is the best one ever
The greatest gift in life is you and me together
And I thank heaven for sending you here tonight
This Christmas time
Some people hope for rings of gold
All that money buys
Children have their list of toys
Prayin' Santa gets it right
The one thing that I wish for
Came true when you walked in
To hear you laugh again
To see you smile again
Oh, this Christmas time is the best one ever
The greatest gift in life is you and me together
And I thank heaven for sending you here tonight
Oh, this Christmas time
And oh, this Christmas time is the best one ever
The greatest gift in life is you and me together
And I thank heaven for sending you here tonight
Sending you here tonight
This Christmas time
