I Feel Good

Boney M

What a beautiful morning
Just to wake up beside you
Is something I've missed for so long
I'm so glad that you came back home
Baby let me tell you
How my days slipped away
And how I was afraid of the night
But now I'm alright
I feel good
Feeling like a lover should
What else can I say
Won't forget the day
You came back to stay
I feel so good (I feel good, I feel good, I feel good)
Finally we understood
You and me were meant
True lovers from the start
We can never part
Our love is grown stronger

More than any temptation
In this world could possibly be
There's no darker thing to see
I feel good
Feeling like a lover should
What else can I say
Won't forget the day
You came back to stay
I feel so good (I feel good, I feel good, I feel good)
Finally we understood
You and me were meant
True lovers from the start
We can never part
I feel good
Feeling like a lover should
What else can I say
Won't forget the day
You came back to stay
I feel so good (I feel good, I feel good, I feel good)

Finally we understood
You and me...
